

Stony Brook Medicine

Stony Brook Medicine, Long Island's premier academic medical center, encompasses Stony Brook University Hospital, Stony Brook Children's Hospital, more than 50 community-based healthcare settings throughout Suffolk County and five health sciences schools — Dental Medicine, Health Technology and Management, Medicine, Nursing and Social Welfare.

With 603 beds, Stony Brook University Hospital serves as Suffolk County's only tertiary care center and Regional Trauma Center. Stony Brook Children's, with more than 160 board-certified pediatric specialists, offers the most advanced pediatric specialty care in the region. We also are home to the Stony Brook University Cancer Center, Heart Institute, Neurosciences Institute and Digestive Disorders Institute.

To learn more about Stony Brook and its many services, physician referrals or appointment scheduling, call (631) 444-4000 or visit stonybrookmedicine.edu.

When You Have
Questions

HealthConnect® Has
Answers

Stony Brook Medicine

Services provided by HealthConnect and the Cancer Helpline are not intended to replace the care provided by a patient's physician.

HealthConnect®

HealthConnect is Stony Brook Medicine's telephone helpline, offering valuable information to assist you in making informed healthcare choices. Speak directly with a registered nurse or other specially trained healthcare professional who will listen to your concerns and help you find answers to questions.

Whether your question is about urgent or routine medical care, preventive medicine or support services, HealthConnect can help you make educated choices.

HealthConnect Provides

- Answers to your healthcare questions from specially trained healthcare professionals
- Descriptions of services available at Stony Brook Medicine
- Physician referrals
- Healthcare information, including materials sent to your home
- Assistance with scheduling appointments and connecting you directly to a physician's office
- Help with registering for classes and seminars offered by Stony Brook Medicine

Cancer Helpline

Early detection is the best way to help ensure effective treatment for cancer, and our Cancer Helpline makes it easy for you to take action and increase the chances for early detection.

Similar to HealthConnect, but specific to cancer, our Cancer Helpline puts you in direct phone contact with sensitive healthcare professionals who are attuned to your needs. They can help provide answers to questions about prevention, risks, screenings, detection, diagnosis, treatments, second opinions, terminology and current research. And the Cancer Helpline staff has access to a comprehensive network designed to quickly locate the most current healthcare information.
