To everyone who sacrificed time with their families to help others, who carried the stress inside while wearing a smile for their patients on the outside, who endured agonizing days like they had never experienced before and STILL returned the next day, who held tablets and cell phones so families could talk to their loved ones...thank you. THANK YOU! From the bottom of our hearts, thank you.

It takes very special people to do a job in a place where very vulnerable people need special care on a normal, day-to-day basis. Those same people continued to do that same job with COVID-19 and did it with even more effort and fight for others, while sacrificing their own lives. That does not go unnoticed or unappreciated! Everyone at Stony Brook Hospital has done such an amazing job just being who they are and doing what they do best. Thank you for being our heroes. You truly are!
