

**Stony Brook University Hospital
Managed Care Participation Reference Guide**

Stony Brook University Hospital participates in most insurance and managed care plans. Refer to the below guide to learn more about which benefit plans are accepted. This list is updated periodically and subject to change. It may not be comprehensive.

Please be advised that there may be certain services provided in our hospital which are not covered by our contract with the managed care plan. The column titled “Service Participation” provides an overview of these services. Since it is the patient’s responsibility to be informed of their insurance coverage and benefit limitations, we ask that you confirm hospital participation and coverage before receiving any non-emergent service.
